

## HSBC Managed Portfolios Limited

# HSBC Managed Portfolios Fund Limited - World Selection 3

Marketing communication | Monthly report 31 December 2025 | Share class IC

### Investment objective

The principal objective of the World Selection portfolios is total return over time while attempting to limit risk through investment in a diversified portfolio of mutual funds. Investors in this portfolio will have a moderate risk tolerance and/or a medium investment time horizon.

### Main risks

- The Fund invests in bonds whose value generally falls when interest rates rise. This risk is generally greater the longer the maturity of a bond investment and the higher its credit quality. The issuers of certain bonds, could become unwilling or unable to make payments on their bonds and default. Bonds that are in default may become hard to sell or worthless. The value of investible securities can change over time due to a wide variety of factors, including but not limited to: political and economic news, government policy, changes in demographics, cultures and populations, natural or human-caused disasters etc.
- The Fund may invest in Emerging Markets, these markets are less established, and often more volatile, than developed markets and involve higher risks, particularly market, liquidity and currency risks.
- Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.

HSBC Managed Portfolios Limited offer a choice of five different risk levels, to be selected by investors depending on factors like their financial goals, time horizon and capacity for loss. Typically, the more risk investors take, the more return they would expect to see. At HSBC Asset Management, we measure risk by volatility – how sharply a Portfolio’s share price moves in any given time period (up or down). The higher the volatility, the higher the risk. The table above shows the Portfolio’s return (for the primary share class or hedged currency share class) per year over the last three years (known as annualised) and the level of volatility over the same period. This can be compared against other funds in the peer group, as defined by an independent research company\*. An example of a good outcome would be that the HSBC Portfolio return is higher than the peer group’s average return and the volatility (risk taken) is lower. However investors should consider their own priorities when it comes to returns and the risk taken to achieve them. \*Morningstar Categories are used to define the peer group comprising funds they deem similar based on fund objectives and holdings. The average is a median.

## Important Information

HSBC Global Asset Management (Bermuda) Limited ("AMBM") of 37 Front Street, Hamilton, Bermuda, is a wholly owned subsidiary of HSBC Bank Bermuda Limited (the "Bank"). AMBM and the Bank are licensed to conduct investment business by the Bermuda Monetary Authority. Funds managed by AMBM are offered by Prospectus only in those jurisdictions where they are permitted by law. Persons are required to inform themselves and observe any relevant restrictions. AMBM makes no representation as to the suitability of the funds for investors. Investors should be aware that performance returns are affected by market fluctuations. Investing entails risks, including possible loss of principal. Past performance is no guarantee of future performance. Investors should note that the use of derivatives and investments involving a currency other than their own will create foreign exchange exposure, which involves special risks. It is the aim of the Company to preserve capital and, where applicable, to maintain a stable net asset value per share; these aims are not guaranteed. Additionally, investors should consider their investment objectives, whether or not they can assume these risks and should undertake their own appropriate professional advice. Expressions of opinion contained herein are subject to change without notice. For investors investing via a nominee service provider, the nominee service provider will process the transaction and route all settlement proceeds to you, which may extend the settlement period. Please contact your investment advisor/introducing agent, or in the absence of those the nominee provider directly, to confirm the settlement period.
