

Argus Select Fund: BALANCED

JULY 31, 2025

Fund Objective

Growth of capital with a primary exposure to equities, while reducing risk and volatility through fixed income and real estate exposure.

Investment Philosophy

We focus on obtaining the proper strategic allocation as this is the best way to achieve long term expected returns. Since market conditions change over time, the assumptions used to develop the long term strategic asset allocations are regularly reviewed.

To implement the strategy we have engaged high quality, institutional managers whom we have thoroughly researched.

Investment Process

Our investment process combines passive strategies, which minimize costs and variance from target returns, with active strategies to create the opportunity for superior results. We create portfolios of high-quality managers whose risk/return profile fits with our overall portfolio objectives. In selecting underlying managers, our central tenets are:

- Ensure managers have a clear investment process
- Provide vigilant oversight of investment managers
- Manage risk through diversification
- Minimize overall costs
