EXECUTIVE SUMMARY

At Argus, our goal is to deliver long-term sustainable value to shareholders, customers, staff and the communities in which we operate. Under challenging conditions, this can become ever more difficult. It is in this environment that we have embraced a strategy of change, for good. Change that is decisive and modernising, change that places Argus firmly on the global stage. A change for good to provide sustainable, quality care for the community and a strong return for all our partners, for all our futures.

We have experienced yet another year of unprecedented change around the globe. President Trump has continued to implement impactful policies ranging from withdrawing from agreements with Paris and Iran to tax reform and proposing protectionist tariffs. Brexit continues to drive confusion and uncertainty, as do the broad range of coalition governments being formed as populations lose their confidence in established government.

In addition to the market uncertainty caused by global change, the low-growth Bermuda economy added to economic pressures. Against this backdrop, the Argus Group is reporting an \$18.6 million net loss attributable to shareholders. This was caused by losses in healthcare, which is inherently volatile, and actions taken to restructure our balance sheets.

Health insurance is not without risk, and in a business where underwriting margins are tight, large major medical claims can have a big impact on reported profits. Major medical claims generally occur when our members need us most - this past year, for example, we've seen an unusually high number of difficult pregnancies and premature babies - and we are steadfast in our commitment to our members to ensure seamless access to the very best available healthcare.

This has impacted our financial results, where claims within our Health business were \$10.4 million greater than in the prior year. Within this context, at Argus, we are highly conscious of the role we play in the health system, in ensuring that our members have access to the best available health outcomes, whilst controlling overall costs.

Our actions to de-risk the balance sheet have placed us in a strong financial position. The Group's strength has been validated by AM Best who, in December 2017, upgraded our financial strength rating to A- Excellent. The rating upgrade reflected the Group's appropriate enterprise risk management framework, consistent favourable operating performance and the strength of our balance sheet. We have continued our balance sheet optimisation strategy during the year with the sole focus of putting our capital to its best use, while ensuring long-term sustainable value.

It is well known that within the Group's surplus investments, we hold a number of non-core assets that had been accumulated over many years. These assets are generally illiquid, difficult to value, time-consuming to manage and have been a drag on the Group's economic performance. Against this backdrop, this year we committed to a decisive course of action to position ourselves to exit these non-core assets and redeploy the proceeds to generate profitable growth and accrete long-term shareholder value. Exiting these assets will free up resources and create additional liquidity that can be used to drive further diversification and growth.

These decisions have not been made lightly, but after an exhaustive process to explore and evaluate the various options, it's clear that now is the time to implement our strategy. The impact of the resultant write-downs on our reported results is significant, totalling \$19.5 million, but we're confident that our actions will accrete long-term value to our shareholders. It's a short-term loss for long-term benefit: a change, for good.

Our Pensions business continues to grow our fee-based income from increased assets under management, driven by strong investment returns and new business, particularly in the international business sector. In 2018, we invested heavily in market-leading technology to enhance our digital customer experience for

our pension members and corporate clients. We're pleased that the changes we made to our pension fund offering in 2017 are delivering the returns we expect. We remain concerned that our members will not be retirement-ready, so we continue to invest in a wide range of education and engagement initiatives to promote long-term financial well-being.

Our Global Property & Casualty division reported an increase in net earnings when compared with the prior year. We view our Global Property & Casualty business as an exciting source of growth and diversification as we are well positioned to capitalise on the strong macro-economic growth forecast in our European territories.

During the year our high-net-worth wealth management affiliate, AFL, became a wholly owned subsidiary of the Group and was subsequently rebranded Argus Wealth Management Limited. Our focus is providing an excellent client experience, whilst delivering sound guidance through consultative relationships. With \$1.2 billion in assets in discretionary and advisory mandates, very competitive performance and a client retention rate of 99 percent, this will support growth, diversification and a stable source of fee income for the Group.

In all of the territories in which Argus does business, we are experiencing ever-increasing levels of regulatory oversight and rigour that shape how we manage capital and mitigate risk. It is our aim that this Financial Condition Report (FCR), will assist interested parties in understanding the corporate governance and capital position of the Argus Group.

This FCR is produced in accordance with the Insurance Rules 2015 (the "Rules") under the Bermuda Insurance Act 1978 (the "Act") in regard to undertakings carrying on Insurance and Reinsurance business in Bermuda.

This FCR published by AGH is based on the financial position as at March 31, 2018, and is prepared on a consolidated basis, which encompasses information in relation to all Bermuda Monetary Authority (BMA) insurance-regulated entities within the Argus Group.

Listed in the table below are the five subsidiaries of the Argus Group, which are licenced by the BMA to carry on general and long-term business insurance in Bermuda. This FCR is prepared on a Group basis and provides additional specific disclosures related to those entities listed below:

Licensed Entity Name	Class of Insurance Licence
Argus Group Holdings Limited (AGH)	Group
Argus Insurance Company Limited (AICL)	General Class 3A
Argus International Life Bermuda Limited (AILBL)	Long-Term Class C
Argus International Life Insurance Limited (AILIL)	Long-Term Class C
Bermuda Life Insurance Company Limited (BLIC)	General Class 3B & Long-Term Class D
Bermuda Life Worldwide Limited (BLW)	Long-Term Class C

DECLARATION

Declaration on the Financial Condition Report

To the best of our knowledge and belief, the Financial Condition Report fairly represents the financial condition of the Argus Group, in all material respects as at March 31, 2018.

Alison Hill, FCMA, CGMA
Chief Executive Officer

Peter Dunkerley, FCA
Chief Financial Officer

I BUSINESS AND PERFORMANCE

Argus Group Holdings Limited (AGH) is the parent holding company for a geographically diverse group of companies operating in Bermuda, Gibraltar and Malta. AGH, together with its subsidiaries, are collectively commonly referred to as “Argus”, the “Group” or the “Argus Group”. AGH’s registered office is located at the Argus Building, 14 Wesley Street, Hamilton HM 11, Bermuda.

AGH was incorporated in Bermuda with limited liability in May 2005 and, pursuant to a court-approved scheme of arrangement, replaced Argus Insurance Company Limited as the parent holding company for the Argus Group in November 2005. AGH is a public company, and Argus’ shares have been listed and traded on the Bermuda Stock Exchange since 1971.

The Argus Group is a multi-line insurance and financial services organisation underwriting life, health, property and casualty insurance. The Argus Group also offers investment, savings and retirement products targeted at local and international businesses as well as individuals.

Bermuda

Argus has been writing insurance since 1950, when The Somers Isles Insurance Company Limited was incorporated with the purpose to ‘transact Hospitalisation Insurance for the first time in Bermuda’. Somers Isles was the first company of what became the Argus Group. In 1957, Argus began administering life benefits and pensions products. Argus is now the market leader in employee benefits, providing innovative and progressive products, tools and services to over 60 percent of the international business sector in Bermuda. In 1961, Argus Insurance Company Limited was formed to write general property and casualty insurance. Additionally, Argus provides wealth management solutions.

Gibraltar

At Argus, we remain committed to our long-term strategic focus of geographical diversification. Argus has had a presence in Gibraltar since November 2004. Argus Insurance Company Europe Limited (AICEL), is a leading Gibraltar-based insurance company writing property and casualty business. Additional specialist classes of insurance are offered through our broking subsidiary, Westmed Insurance Services Limited.

Malta

We have continued to diversify the Group’s sources of earnings across products and geographies. In 2010, AGH acquired a strong, well-established insurance agency that has served Malta since 1966, now Argus Insurance Agencies Limited. Since then, we have gained considerable momentum with the successful integration of the Millennium Insurance Agency business and, in 2016, we welcomed Island Insurance Brokers Limited into the Argus Group.

Group Structure

The table below provides details of the major operating subsidiaries, which are directly and indirectly held by AGH at March 31, 2018.

Name	Country of incorporation and place of business	Nature of business	% of ownership interest held (1)	% of ownership interest held by non-controlling interests (1)
Argus Wealth Management Limited (formerly AFL Investments Limited)	Bermuda	Investment management services	100%	-
Argus Insurance Agencies Limited	Malta	Insurance agency	100%	-
Argus Insurance Company Limited	Bermuda	Property and casualty insurance: Home and commercial property, contractors' all risks, liability, marine, motor and employer's indemnity	100%	-
Argus Insurance Company (Europe) Limited	Gibraltar	Property and casualty insurance: Home and commercial property, contractors' all risks, liability, marine and motor	100%	-
Argus International Life Bermuda Limited ⁽²⁾	Bermuda	Individual life and annuities	100%	-
Argus International Life Insurance Limited ⁽²⁾	Bermuda	Individual life and annuities	74%	26%
Argus Investment Nominees Limited	Bermuda	Nominee company	100%	-
Argus Management Services Limited	Bermuda	Financial and general management services	100%	-
Bermuda Life Insurance Company Limited	Bermuda	Pensions, group life and long-term disability insurance, individual life and annuities, group and individual health insurance	100%	-
Bermuda Life Worldwide Limited	Bermuda	Individual life and annuities	100%	-
Centurion Insurance Services Limited	Bermuda	Insurance agent and licensed broker	100%	-
NBHH (Keepsake) Limited	Bermuda	Property holding company	100%	-
Island Insurance Brokers Limited	Malta	Insurance broker	100%	-
Trott Property Limited	Bermuda	Property holding company	100%	-
Westmed Insurance Services Limited	Gibraltar	Insurance agent and licensed broker	100%	-

(1) Percentage held by shareholders and non-controlling interests are consistent with prior year, with the exception of Argus Wealth Management Limited. Effective December 1, 2017, Argus Wealth Management Limited became a wholly-owned subsidiary of the Company, following the acquisition of the 40 percent interest previously held by non-controlling interests. The consideration paid for the acquisition of the non-controlling interests was \$2.5 million. Effective March 26, 2018, AFL Investments Limited changed its legal name to Argus Wealth Management Limited.

(2) Argus International Life Bermuda Limited also owns 100 percent of Argus International Life Insurance Limited's preference shares.

All subsidiaries are included in the Group's consolidated figures. The Group's voting rights percentages are the same as the ownership percentages.

Group Supervisor

The Argus Group is licensed and regulated in the territories in which the Group does business. However, the BMA is the regulator of the Group.

Argus Group

Insurance Business

The Argus Group offers a wealth of multi-line insurance and financial services solutions to our clients, built on decades of experience and a strong capital base within our three divisions of Employee Benefits, Global Property and Casualty (P&C) and Wealth Management. The subsidiaries that operate outside of Bermuda have not been reported on an individual basis within this report as they fall outside the scope of this FCR.

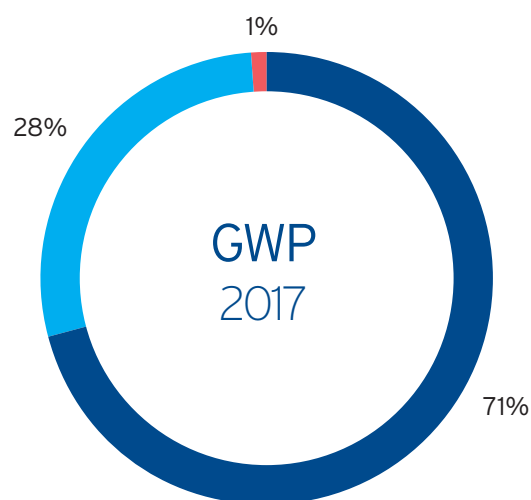

The Argus Group's consolidated gross written premiums by division and by geographical region for the years ending March 31, 2018 and 2017, are shown in the tables below.

Consolidated Gross Written Premiums \$000	2018	2017
Employee Benefits	123,448	116,330
Global Property & Casualty	49,205	46,047
Wealth Management	183	222
Total	172,836	162,599

Investments

At the core to the Group's investment philosophy is our commitment to careful and diligent custodianship of policyholder and shareholder assets. The Group's investment portfolio is designed to ensure funds are readily available to satisfy its obligations to policyholders and to enhance shareholder value by generating appropriate long-term risk-adjusted yields. We have a clear objective to maximise returns without taking inappropriate levels of risk.

As can be seen from the charts below, 84 percent of the Group's investments are fixed income bonds of which 98 percent are investment grade.

A new investment class is presented this year, Assets Held-for-Sale. These are non-core assets, which do not align with the Group's goal of maximising risk-adjusted returns. Consequently, the Group intends to sell these assets over the next 12 months.

Investment Assets As At March 31, 2018

Fixed Income Portfolio Ratings 2018

The Group's portfolio generated positive returns over the fiscal year, despite a number of events that have impacted global investment markets. The U.S. Federal Reserve raised short-term interest rates three times. And, after a period of tightening credit spreads and rallying global equities, fears of inflation and trade wars caused significant volatility towards the end of our fiscal year.

Against this backdrop, the Group's investments had a net positive total return of \$12.0 million for the fiscal year. \$14.5 million has been recorded on the income statement, whilst unrealised losses of \$2.5 million were recorded in other comprehensive income (OCI) on the balance sheet. After accounting for write-downs of our investment in associates and real estate holdings, the total loss for the year was \$3.7 million, of which a \$1.2 million loss was recorded on the income statement and a loss of \$2.5 million through OCI. This compares with \$18.4 million in net income and a further \$0.9 million in OCI for the prior year.

The table below provides a breakdown of the Group's investment portfolio by asset class.

\$000	Asset Balance 2018	Net Investment Income 2018	Percentage Return 2018
Fixed Income	408,944	11,753	2.9%
Equities	26,942	2,525	11.0%

Impairments	-	(9,918)	-
Allocations	-	(1,776)	-
Total	460,473	3,544	1.6%

Argus Insurance Company Limited (AICL)

AICL is a wholly owned subsidiary of AGH, writing property and casualty insurance business to both commercial and retail clients. Additionally, AICL provides underwriting, claims and administration services. The lines of business written by AICL include property, motor, marine and casualty. The majority of the business written is direct insurance, with a small proportion of reinsurance coverage to the local market. AICL's comprehensive reinsurance arrangements help to mitigate significant events, namely windstorms.

AICL's gross written premiums by line of business and by geographical region for the years ending March 31, 2018 and 2017 are as follows:

Gross Written Premiums \$000	2018	2017
Property	19,208	19,290
Motor	4,220	4,053
Marine	620	681
Casualty	4,409	4,137
Total	28,457	28,161
Bermuda	28,457	28,161

Bermuda Life Insurance Company Limited (BLIC)

BLIC is a wholly-owned subsidiary of AGH, writing business for both group and individual clients. The lines of business include health, life and disability insurance, in addition to offering pension and annuity products. Argus is the market leader in employee benefits, providing innovative and progressive products, tools and services. We adopt an integrated, people-centric approach across our full range of services that support being proactive about maintaining both physical and financial wellness for an enriched and fulfilling retirement.

BLIC's gross written premiums by line of business and by geographical region for the years ending March 31, 2018 and 2017 are as follows:

Gross Written Premiums \$000	2018	2017
Health	99,360	97,901
Life	8,524	8,386
Annuities	16,498	11,339
Total	124,382	117,626
Bermuda	124,382	117,626

■ Health ■ Life ■ Annuities

International Life Division

The Group's Wealth Management Division includes three regulated insurance subsidiaries, Argus International Life Bermuda Limited, Argus International Life Insurance Limited and Bermuda Life Worldwide Limited, collectively referred to as the International Life Division.

In March 2018, Management committed to a plan to sell the International Life Division, including all of its assets and liabilities in the General funds and Segregated funds. The sale is expected to be finalised before September 30, 2018, subject to regulatory approval.

Argus International Life Bermuda Limited (AILBL)

AILBL is a wholly owned subsidiary of AGH and is a registered separate accounts company under the Argus International Life Insurance Limited Consolidation and Amendment Act 2008. Any reference made to AILBL in this document will mean to refer to AILBL as a stand-alone entity unless otherwise stated.

Argus International Life Insurance Company (AILIL)

AILIL is owned 74 percent by AILBL, and 26 percent by a United States resident partner. AILIL has made the U.S. Internal Revenue Code 953(d) election, which allows it to be treated as a United States domestic insurance company for income tax purposes. AGH, through its wholly owned subsidiary AILBL, holds more than a simple majority of the shares issued and outstanding of AILIL, and therefore maintains significant influence over AILIL. AILIL is a registered separate accounts company under the Argus International Life Insurance Limited Consolidation and Amendment Act 2008.

Both AILBL and AILIL offer variable life insurance products to trusts, private companies or other eligible entities located in Bermuda or in other jurisdictions where it is deemed that the laws do not prohibit the ownership or sale of the insurance.

Bermuda Life Worldwide Limited (BLW)

BLW is a wholly owned subsidiary of AILBL. BLW contains a closed book of fixed interest universal life policies for individuals domiciled outside Bermuda. BLW is in run-off, with no new business since 1999.

AILBL, AILIL and BLW write life business only. Gross written premiums by entity and by geographical region for the years ending March 31, 2018 and 2017 are as follows:

Gross Written Premiums \$000	2018	2017
AILBL	-	-
AILIL	-	-
BLW	182	241
Total	182	241
Bermuda	182	241

The following tables provide a breakdown of AILBL, AILIL and BLW's investment portfolio by asset class.

Material Income and Expenses

Argus Group's main revenue sources are premiums, fees and commissions where margins remain under pressure from competitors and from clients who are looking to drive ever greater value from their service providers. In this context we are pleased to have successfully held rates firm across most lines of business with modest overall rate increases for our health business. Combined fee income includes \$24.6 million comprising fees for service generated by our pensions, insurance brokerage, health administration and wealth management businesses.

The Group's major expense arises from claims costs. We use a combined operating ratio to track the overall performance of our underwriting operations, which compares premium income to the cost of claims and operating expenses. For the year ended March 31, 2018, the combined operating ratio for the insurance businesses within the Group increased to 90.6 percentage; this compares to 83.3 percentage in the prior year. The increase in the combined ratio compared to the prior year is driven by lower profits from our health business. In healthcare, we tracked what we believed was a trend of plateauing claims, maintaining premiums year-on-year only to find that the plateau was an anomaly and health claims continue to rise. Specifically, this year we've seen an unusually high number of difficult pregnancies and premature babies contributing to our high claims. With the benefit of hindsight, we passed on premium savings to our customers too quickly, which has contributed to the loss in our health business this year. However, we have acted decisively and have several initiatives in place to return our health business to profit. Our Global Property & Casualty businesses performed well overall and have reported an increase in net earnings when compared with the prior year. Our European entities have delivered pleasing growth in premiums and fee income and we remain optimistic about the prospects for significant further growth. Reported claims for the division were higher than the previous year due to a higher than normal occurrence of large motor, marine and liability claims, which were offset by a benign hurricane season in Bermuda. Once again, we are pleased that the financial impact to the Group of significant events has been mitigated through the performance of the Group's comprehensive reinsurance arrangements.

The material income and expenses for the Bermuda regulated insurance subsidiaries for the years ending March 31, 2018 and 2017 are as follows:

Material Income (& Expenses) for 2018						
\$000	AICL	BLIC	AILBL	AILIL	BLW	Argus Group
Net earned premium	8,908	116,202	(880)	(1,160)	(166)	134,973
Net investment income	1,122	3,055	43	69	967	3,544
Commission & fee income	7,507	14,478	2,178	2,167	-	35,438

Other material information

Group Strategy

Our strategic objectives provide focus for the future and will deliver opportunities that we are uniquely positioned to capture.

Innovation

Our focus is to deliver exceptional service to our customers, setting Argus apart as a leader in the marketplace. This involves a proactive and agile approach to innovation and decision-making, encouraging different ways of working and getting the right balance between technology and personal contact to improve the experience of our customers, employees, business partners and stakeholders. We keep pace with global best practice to innovate and evolve our products, processes, systems and skills. We are dedicated to promoting collaboration and innovation throughout the Company and with our partners.

Advocacy

Our approach to advocacy is to do the right thing on behalf of our customers, our staff and business partners. Our aim is to be the pioneer in effecting change and action to improve the lives of the residents in the communities we serve. We seek to act as an innovative advocate on community well-being and as a thought leader in the legislative reform of Employee Benefit services to the advantage of all stakeholders. Our holistic approach to meeting evolving client needs means that we can advocate on their behalf.

Growth

Our goal is to deliver long-term sustainable shareholder value in a dynamic and rapidly evolving global marketplace. We will continue to focus on growth opportunities by expanding into related business products and services in relevant markets to enhance our long-term, sustainable profitability. We leverage our extensive experience and knowledge across our team whilst collaborating with best-in-class global partners to remain in line with international best practice and emerging trends.

Financial Strength and Credit Rating

A.M. Best's Financial Strength Rating is an independent opinion of an insurer's financial strength and ability to meet its ongoing policy and contract obligations. A.M. Best's opinions are derived from an evaluation of a company's balance sheet strength, operating performance and business profile.

Listed below are the two Argus entities that obtain a Financial Strength Rating from A.M. Best.

	Financial Strength Rating	Long-Term Credit Rating	Outlook	Rating Year
AICL	A- (Excellent)	a-	Stable	2017
BLIC	A- (Excellent)	a-	Stable	2017
Argus Group		bbb-	Stable	2017

In December 2017, A.M. Best upgraded the Financial Strength Rating to A- (Excellent) from B++ (Good) and the Long-Term Issuer Credit Rating (Long-Term ICR) to "a-" from "bbb+" of AICL and BLIC. Concurrently, A.M. Best has upgraded the Long-Term ICR of Argus Group to "bbb-" from "bb+". The outlook for these Credit Ratings has been revised to stable from positive.

The ratings reflect Argus Group's balance sheet strength, which A.M. Best categorises as very strong, as well as its adequate operating performance, limited business profile and appropriate enterprise risk management. ⁽¹⁾

II GOVERNANCE STRUCTURE

The primary objective of the Group's risk and financial management framework is to protect the Group from events that hinder the sustainable achievement of financial performance objectives, including failing to exploit opportunities if those opportunities fall within the Group's risk appetite. Management recognises the critical importance of having efficient and effective risk management systems in place.

The Group has an established risk management function with clear terms of reference from the Board of Directors, its committees and the associated executive management committees. This is supplemented by a clear organisational structure with documented delegated authorities and responsibilities from the Board of Directors to executive management committees and senior management. In addition, a Group policy framework which sets out the risk profiles, risk management, control and business conduct standards for the Group's operations is in place. Each policy has a member of senior management charged with overseeing compliance with the policy.

The Board of Directors approves the Group's risk management policies and meets regularly to approve any commercial, regulatory and organisational requirements of such policies. These policies define the Group's identification of risk and its interpretation, which ensures the appropriate quality and diversification of assets, and the alignment of underwriting and reinsurance strategy to the corporate goals.

Board and Senior Executive

The Board has responsibility for strategic oversight and ensuring Management (inclusive of the Officers) comply with legal and regulatory requirements. Management, and in particular the Officers, are responsible for the day-to-day operations and administration of the Group.

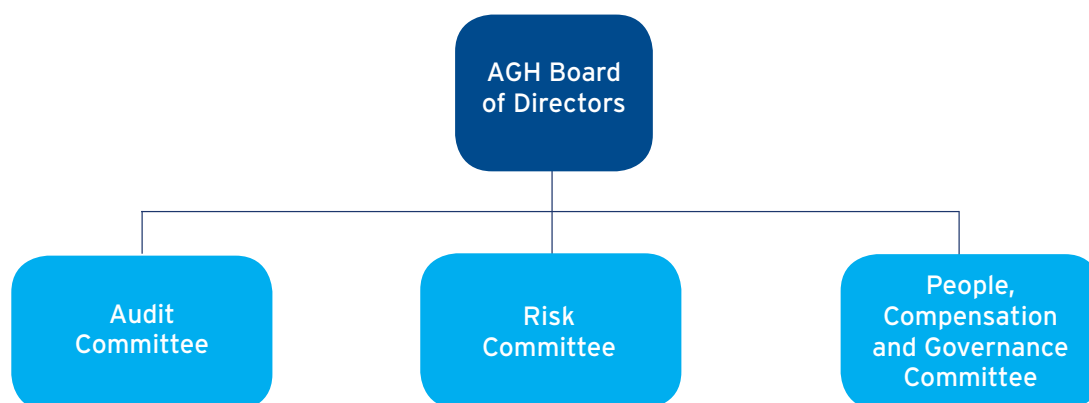

The role of the Board is to provide leadership of the Group as a whole and the respective subsidiaries within a framework of prudent and effective controls, which enables risk to be assessed and managed. The AGH Board sets the Argus Group's strategic aims, and ensures that the necessary financial and human resources are in place to meet objectives and review management performance. The Argus Group's values and standards are set by the AGH Board, ensuring that its statutory and legal obligations to stakeholders and Government are understood and met.

Each subsidiary Board is similarly responsible for each relevant subsidiary, to enable the AGH Board to carry out its objectives.

Board Committee Structure

The Argus Group operates a centralised board committee structure at AGH level: each of AGH's board committees has been given authority on behalf of AGH's Board of Directors, with responsibility for ensuring all entities of the Argus Group operate, and are managed, to a common minimum standard pursuant to committee-specific Terms of Reference. Where an operating subsidiary has a matter that falls outside the parameters generally prescribed by an AGH board committee, the subsidiary's management have the ability to escalate matters to the relevant AGH board committee for consideration on an exception basis, and recommendation for appropriate action to the relevant subsidiary board or AGH Board where appropriate.

The chart below reflects AGH's current board committee structure:

Audit Committee

The Audit Committee is tasked with assisting the Group's Board in fulfilling its oversight responsibilities for the Group's financial reporting process, the system of internal control, the audit process, as well as the Group's process for monitoring compliance with laws and regulations and the code of conduct.

Risk Committee

The Risk Committee is tasked with the oversight of the Group's risk management, asset liability management, and financial investments, the latter as defined in the Group's Investment Policy.

The Risk Committee advises the Group's Board on overall risk appetite, tolerance, strategy and metrics, taking into account current and prospective economic, financial, regulatory and political environments.

People, Compensation and Governance Committee

The role of the People, Compensation and Governance Committee (PC&G Committee) is as follows: (1) to ensure that suitable potential board nominees are identified and recruited, (2) to oversee the process by which individuals are nominated to become board members, (3) to discharge the Group's Board's responsibilities relating to the compensation of the Group's executive officers and other designated senior officers, (4) to ensure the adoption of policies that govern the Group's compensation and benefit programmes, (5) to oversee matters of corporate governance, including advising the Group's Board on matters of (A) board organisation, membership and function; and (B) committee structure and membership, (6) to have oversight of plans for executive officer development and succession, and (7) to fulfil the responsibilities set forth in the Terms of Reference of the Committee.

The Argus Group's PC&G Committee has the additional responsibility for reviewing the roles and responsibilities of top executives and non-executive directors, to develop a succession plan, timelines, and to identify and recommend potential candidates for appointment as well as oversee the annual evaluation of the performance and effectiveness of the Group's Boards and review the report and results of the evaluation.

The Group's Board's committee structure, committee operations, committee formations, and committee charters are periodically reviewed by the PC&G Committee, which makes such recommendations to the Group's Board to be consistent with best practices and the best interests of the Argus Group.

Management Committees

Asset Liability Management Committee

The Committee is appointed by the Board and is tasked with the oversight of the management and control of all financial investments and corresponding liabilities, as defined in the Argus Group's Investment Policy.

Executive Risk Management Committee

The Committee is appointed by the Board and is tasked with establishing a sound and effective risk management framework, including developing policies, procedures, and internal controls promoting the identification, evaluation, mitigation, monitoring and reporting of material risks in line with the Insurance Code of Conduct, the Investment Business Act, and any and all other relevant legislation and/or advisories as applicable in each jurisdiction, reviewing on a regular basis the risk management techniques employed in light of changing operational, regulatory, and market developments to ensure continued effectiveness and adoption of international best practice, and assessing and evaluating the company's self assessment of compliance with regulatory requirements on a regular basis.

Operational Risk Management Sub-Committee

The Sub-Committee is appointed by the Executive Risk Management Committee and is tasked with reviewing and approving the risk management policies and procedures, and subsequent changes to them, providing a forum to review the various exposures to the business units and the strategies to mitigate material risks, overseeing the development and implementation of the risk, compliance and internal controls framework for the Group, and reviewing management information systems reports, such as customer complaints, operational risk losses, and "near-miss" incidents.

Data Privacy & Information Risk Sub-Committee

The Sub-Committee is appointed by the Executive Risk Management Committee and is tasked with reviewing the classification and security of the Group's data, complying with data privacy regulations, preparing and monitoring the Group's Data Breach Response Plan, and general security awareness.

Capital & Regulatory Risk Sub-Committee

The Sub-Committee is appointed by the Executive Risk Management Committee and is tasked with reviewing the Group's Medium-Term Capital Plan and ongoing capital requirements, statutory returns and regulatory reporting, and general communication to and from regulators and rating agencies.

Underwriting & Claims Risk (Property & Casualty) Sub-Committee

The Sub-Committee is appointed by the Executive Risk Management Committee and is tasked, on behalf of the Group's property and casualty businesses, with reviewing underwriting/claims policies, procedures and manuals, underwriting authority limits, rate reviews and pricing changes, new product development, business developments or opportunities, claims trends and large loss reporting, reinsurance renewals and changes to reinsurance programmes, and reserving.

Underwriting & Claims Risk (Employee Benefits) Sub-Committee

The Sub-Committee is appointed by the Executive Risk Management Committee and is tasked, on behalf of the Group's employee benefits businesses, with reviewing underwriting/claims policies, procedures and manuals, underwriting authority limits, rate reviews and pricing changes, new product development, business developments or opportunities, claims trends and large loss reporting, reinsurance renewals and changes to reinsurance programmes, and reserving.

Remuneration Policy

At the Argus Group, our culture is to do the right thing, the right way, always, especially when it comes to our staff. Our compensation programme is a key component of our talent management strategy, and management are incentivised on forward-looking activities that generates long-term sustainable value. The Argus Group offers remuneration packages to attract, retain and motivate high quality employees in the respective jurisdictions in which we operate. Both fixed and variable remuneration is offered. Fixed remuneration is given in the form of a base salary and is determined by taking into account an individual's experience and qualifications. Variable remuneration is discretionary and takes the form of cash bonus and is available to all staff.

Three factors that impact the variable remuneration are market position, individual performance and the Group's ability to meet its financial and strategic targets. Additionally, the granting of restricted stock is at the discretion of the PC&G Committee of the Board of Directors. When determining grants, consideration is given to further enhance the Group's ability to retain the services of key employees.

Comprehensive salary reviews are conducted as part of the annual performance appraisal process. The Human Resource department ensures that remuneration is internally equitable and aligned with market-competitive compensation levels in all jurisdictions.

The PC&G Committee of the Board of Directors is empowered to review and approve key compensation policies on behalf of the Argus Group, and in that connection, to also ensure that such policies provide total compensation that is competitive in the marketplace.

Moreover, part of the role and oversight of the PC&G Committee is the annual review and approval of the Group's remuneration and compensation policies. This includes the executive total compensation plan structure, short-term incentive compensation plans, review of performance evaluations, and equity-based plans for the Group's executive officers and other designated senior officers. Additionally, the Board is charged with oversight of plans for executive and senior officers' development and succession.

Pursuant to the Group's bye-laws, the remuneration (if any) of the Directors shall be determined by the Group at a general meeting and shall be deemed to accrue from day to day. The Directors may also be paid all travel, hotel and other expenses properly incurred by them in attending and returning from the meetings of the Board, any committee appointed by the Board, general meetings of the Group, or in connection with the business of the Group or their duties as Directors generally. The Board may, from time to time, at its sole discretion, approve the provision by the Company of such ex-gratia benefits, without limitation, whether by the payment of cash, gratuities, pensions or otherwise, as determined by the Board, to any one or more Directors.

During the current reporting period, the Group's Independent Non-Executive Directors received a fixed fee with no variable or performance-related component, as set by the Group's shareholders at the Annual General Meeting held on September 28, 2017.

The Group's Executive Directors are salaried employees of the Argus Group and are remunerated based on an employment contract.

The CFO and CEO receive no further remuneration entitlement based on the role as a Director of the Group or any subsidiary thereof.

Pension or Early Retirement Schemes for Members, Board and Senior Employees

There are no supplementary pensions or early retirement schemes for Members, Board and senior employees.

Material Transactions with Shareholder Controllers, Persons who Exercise Significant Influence, the Board or Senior Executives

AGH is a public company listed on the Bermuda Stock Exchange. Other than general intra-group outsourcing arrangements typical of a consolidated conglomerate (risk, legal, treasury, actuarial, marketing, etc.), the Argus Group also provides group employee benefits (pension, health, life) to employees of the Group.

During the financial year ending March 31, 2018, AGH paid a total dividend of \$3.8 million to shareholders.

The following capital transactions were also recorded by Bermuda insurance subsidiaries, in line with the Group Capital Management Policy, during the year ending March 31, 2018:

- AICL distributed \$0.7 million of contributed surplus and paid a dividend of \$3.7 to AGH
- BLIC paid a total dividend of \$13.0 million to AGH
- BLW distributed \$1.1 million of contributed surplus to AGH

Fitness and Propriety Requirements

Our core values of integrity, fairness, excellence, respect, professionalism and teamwork underpin the foundation upon which Argus is built. The Group ensures that the individuals running the business or fulfilling key functions are aligned with the core values of the Group and have the appropriate knowledge and skills.

In assessing whether an employee is fit and proper, consideration has to be given to the person's competence and capability to undertake the role, including professional and formal qualifications, and knowledge and relevant experience in the context of the respective duties allocated to that person. In addition, due to the level of trust required to perform certain activities and the obligations imposed by regulators upon financial services firms, employees must also demonstrate a number of personal qualities such as honesty and integrity.

The PC&G Committee of AGH uses criteria when considering candidates for election as non-executive directors of any entity within the Argus Group and when evaluating existing non-executive directors to determine whether they should be endorsed for re-election by the shareholders. The criteria that follows are not exhaustive and the committee may consider other factors.

Individuals to be considered for board membership should possess all of the following personal characteristics: good character and integrity, informed judgment, financial literacy, maturity and a history of achievement in a business environment. Each board, as a whole, should demonstrate abilities in the following fields: accounting and finance; business judgment; general management; knowledge of local and international insurance and reinsurance, including knowledge of the relevant company's businesses and products; familiarity with the Bermuda economy and its political and social situation; leadership and vision. Consideration is also given to the combination of skills, experience, independence and diversity of backgrounds, which will enable each board, as a body, to be effective in advancing the business and prospects of the respective company. Existing non-executive directors are obligated to immediately advise the chairman of the Committee of potential conflicts of interest, perceived or actual, and the individual's appropriateness of continuing as a director is then re-evaluated by the Committee. The Committee will not recommend the election or re-election of persons who are unable to devote sufficient time to the affairs of AGH or the relevant subsidiary company.

Each director, upon election, must then operate pursuant to a specific Terms of Reference for Directors, which expressly states the objectives and responsibilities of each of the AGH and subsidiary boards, as well as clearly defines the fiduciary and statutory duties of each Director. The Committee conducts individual and collective board assessments on a minimum of an annual basis to ensure compliance with these duties specifically and the Terms of Reference generally.

Argus Group Holdings Limited - Board of Directors

The Argus Group's Board of Directors is comprised of both Bermudian and non-Bermudian individuals who bring a wealth of local and international business experience. Their reputation and experience reflect the Argus Group's corporate values. The composition reflects a blend of financial, insurance and business knowledge. A list of Directors is provided below with a brief professional resume on each. All of the Directors also either chair or serve on the boards of a number of AGH's subsidiary companies, or on key committees of the Group's Board of Directors.

Wendell S.F. Brown retired as a Non-Executive Director with effect from February 12, 2018.

Lynne Woolridge resigned as an employee and Executive Director with effect from March 25, 2018.

Risk Management and Solvency Self-Assessment

Risk Management Process and Procedures to Identify, Measure, Manage and Report on Risk Exposures

The Group's Board of Directors has the primary responsibility for risk oversight and has delegated the responsibility for ensuring the effectiveness of the risk management framework to the Risk Committee, leaving the day-to-day responsibilities of managing and overseeing the execution of the risk management programme to the Risk Management Committee (RMC).

The risk identification and assessment process is an integral part of the annual business planning process. The timing of the annual risk register review has now been aligned with the business planning process, whereby each business and support unit identifies material risks to which it is exposed and then designs appropriate mitigation controls based on the severity of each risk. The majority of material risks considered by each business unit included the following: insurance underwriting risk, investment, liquidity, and concentration, market and credit risks, system and operational risk, Group and strategic risk, reputational and legal risks.

For each material risk, the Group's assumed exposure is measured in terms of its likelihood and impact and/or consequence in preventing each business unit from achieving its business objectives. Once the risk exposure is assessed, the risk treatment is considered based on acceptance, reduction, transferability or avoidance and, taking into account the Group's risk appetite statement, risk tolerance levels and limits.

In addition to the risk registers, Management has prepared a risk budget in accordance with risk tolerances of the Group Risk Appetite Statement. The risk budget has been assessed against historical adverse events within the individual business units and the potential variability within the 2018-19 budget.

To ensure that a wide range of risk activities are sufficiently covered, the RMC has delegated certain matters to four Sub-Committees:

1. Operational Risk
2. Data Privacy & Information
3. Underwriting & Claims (Property & Casualty)
4. Underwriting & Claims (Employee Benefits)
5. Capital & Regulatory

Per the Board-approved Terms of Reference of the RMC, each Sub-Committee meets on a monthly basis and reports its activities to the RMC every other month. The RMC reports to the Risk Committee on a quarterly basis.

Risk Management and Solvency Self-Assessment Systems Implementation

The Group ensures that the risk management framework and solvency self-assessment systems are embedded in the running of its businesses through the monthly Risk Management Committee, Asset Liability Management Committee and Operations Committee, and the twice monthly Portfolio Management Group. All material risks, business decisions and strategic planning are brought to these committees/working groups, and reported to the Committees of the Board for review and approval. Business decisions are assessed taking into consideration the risks and the group's appetite towards risk, as defined in the Group's Risk Appetite Policy. Solvency self-assessment is carried out on a forward-looking basis at least quarterly. The impact on solvency and capital from potential material business decisions is incorporated in the

Medium-Term Capital Plan (MTCP) and reported to the Risk Management Committee.

Management considers the capital requirements of all its insurance entities on a quarterly basis, and advises the Risk Management Committee, through the MTCP, of any surplus or deficit capital. The MTCP includes an analysis of the quarterly financial position of all insurance entities in the Group, including the solvency requirements as prescribed by the Act. The Group has internal capital targets supplemental to the regulatory requirements. The MTCP includes recommendations for the maintaining of those internal targets.

Solvency Self-Assessment Approval Process

The solvency self-assessment is approved by the Risk Management Committee with final approval by the Audit Committee/Risk Committees of the Board. Independent verification is carried out by Internal Audit and an audit opinion is prepared and submitted to the Audit/Risk Committees of the Board accordingly.

Internal Controls

Internal Control System

The Group has established processes, procedures and systems to ensure that business objectives are achieved in an operationally effective and efficient manner; financial information and reporting is reliable; and compliance with laws, regulations and internal policies is achieved.

The adherence to internal controls is an integral part of the business culture. Senior management across the Group ensures that all personnel are aware of their role and responsibilities as they relate to the internal control system and that the control activities are commensurate with the risks arising.

All incidences of internal control breakdowns are monitored by the risk and compliance function, analysed for causes and remediated on a timely basis. Risk Management monitors the remediation progress through monthly reporting.

The internal control system is comprised of the Internal Control Environment and Monitoring and Reporting.

Internal Control Environment

Senior management across the Group promote the importance of performing appropriate internal controls by ensuring that all personnel are aware of their role in the internal control system. The control activities are commensurate to the risks arising from the activities and processes to be controlled. To that end, an annual risk assessment of material risks is performed across the Group and these are recorded in risk registers.

Monitoring and Reporting

Senior management has established monitoring and reporting mechanisms within the internal control system which provide the AGH Board with the relevant information for the decision-making processes on a quarterly basis. The solvency self-assessment approval process requires the approval of the Risk Management Committee and final approval of the Audit and Risk Committees of the Board. An independent verification is carried out by Internal Audit and an audit opinion is prepared and submitted to the Audit and Risk Committees of the Board accordingly.

Compliance Function

A Head of Group Compliance has been appointed by the Board to manage the compliance function in all jurisdictions within which the Group operates. A Group Compliance policy, which sets out the responsibilities of the Board, Management and the Head of Compliance, has been approved by the Board.

The Head of Group Compliance monitors compliance with Group policies and procedures, adherence to the Group Standards of Business Conduct as well as compliance with the internal control system. All incidents

of non-compliance, and their remediation, are reported to the Board on a quarterly basis. The Compliance function is subject to an annual internal audit and a report of deficiencies or material non-compliance findings are reported to the Board.

Internal Audit

A Head of Group Internal Audit has been appointed by the Board to manage the internal audit function. These responsibilities are set out in the Group Internal Audit Policy which has been approved by the Board.

Independence of the Internal Audit Function

The Audit Committee ensures that the internal audit function does not perform any operational functions and is free from undue influence by any other functions, including key functions. In that respect, the internal audit function reports directly to the Audit Committee (Chairman) and, administratively, reports to the Head of Compliance who is also independent and reports directly to the Audit Committee.

When performing an audit, and evaluating and reporting the audit results, the Audit Committee ensures that the internal audit function is not subject to influence from Management or the Board, that could impair its operational independence and impartiality.

Conflict of Interest within the Internal Audit Function

Measures to manage the conflict of interest are set out in the Group Standards of Business Conduct Policy. All employees, including Directors, are required to annually certify that they remain compliant with the policy.

Internal Audit Policy

The Board-approved Internal Audit Policy sets out the terms and conditions to which the internal audit function can be called upon to investigate and give its opinion or assistance, or to carry out other special tasks.

Annual Internal Audit Plan

The annual internal audit plan is reviewed and approved by the Audit Committee on behalf of the Board. The Audit Committee ensures that the internal audit plan:

- is risk-based, taking into account all the business activities and the system of governance, as well as strategic initiatives;
- covers all significant business activities that are to be reviewed within a reasonable period of time; and
- is flexible enough to cover any ad-hoc areas that the Board, Audit Committee or the Executives may require internal audit to investigate.

Actuarial Function

The actuarial function is led by the Group's Chief Actuary. The actuarial function is governed by the Terms of Reference for the Actuarial Function, which has been approved by the Board and encompasses the requirements of the BMA's Insurance Code of Conduct and Solvency II Directive.

The actuarial function is responsible for reporting and ensuring the adequacy of technical provisions for insurance business. The Chief Actuary reports at least annually to the Board on the nature, reliability and adequacy of the technical provisions. In addition, the actuarial function has representation on the Audit Committee of the Board.

The actuarial function contributes to the effectiveness of the risk management framework, particularly as it relates to policyholder obligations, potential exposures and capital requirements.

Analyses performed by the actuarial function include but are not limited to:

- Own risk and solvency self-assessment at least annually (CISSA/GSSA and ORSA)
- Asset liability matching quarterly
- Experience analyses at least annually
- Effectiveness of underwriting processes
- Effectiveness/appropriateness of reinsurance arrangements

The actuarial function reports on its activities via the relevant executive management committees and committees of the Board.

The majority of the activities of the actuarial function are performed internally. The exception is the approved actuary for the Group's property and casualty business, which is performed by an external independent actuary, approved by the regulator. The Group's Chief Actuary performs the approved actuary roles for the Group's long-term and health businesses.

Fitness and Propriety

The actuarial function is carried out by fit and proper persons. Persons conducting the activities of the function have the relevant experience and qualifications, in addition to complying with the Group's Fit and Proper policy.

Outsourcing

The Group has developed a Board-approved Outsourcing Policy that shall govern the outsourcing arrangements, ensuring that outsourced functions are conducted in a sound manner, in compliance with applicable laws and regulations and ensuring that the company meets its financial and service obligations to policyholders.

The policy sets out a robust governance process for selecting a Third Party Service Provider (TPSP). Prior to the appointment of a TPSP, a full due diligence exercise is undertaken to assess the suitability, competency and capability of each TPSP to carry out the outsourced function and the control environment in which it operates. Part of the control environment assessment is to ensure that the TPSP has sufficient data security controls in place to protect the Group's data and that of its policyholders, as well as having the appropriate business continuity and/or contingency plans.

The policy further sets out a process to monitor the performance of each outsourced function or service and to report to the Risk Management Committee all instances of non-compliance with the policy, or breach of laws and regulations, in a timely manner. The group has an Outsourcing Policy which outlines the criteria for the selection of third party service providers. This policy governs the Group and all its subsidiaries.

The outsourcing policy includes the following:

- The criteria for determining whether a function or activity is critical or important;
- The selection process for a service provider, and how often their performance and results are assessed;
- The contents of the written agreement with the service provider (service level agreement); and
- Business contingency plans, including existing strategies for outsourced critical or important functions or activities.

Description of Material Intra-group Outsourcing

The following key functions, namely, Actuarial, Risk Management, Compliance and Internal Audit are intra-group outsourced. Further, the following key support functions are also outsourced to the Group. These are:

- Information Technology
- Human Resources
- Investment Management
- Accounting and Finance
- Marketing

A Service Level Agreement has been executed between each entity and the Group.

The fit and proper procedures have been applied when assessing persons employed by the Group to perform these functions.

Any other material information

There is no additional material information to report under Governance Structure.

III RISK PROFILE

Risk Appetite

The risks taken by the Argus Group are guided by the following principles:

- All risks undertaken must have an associated expected reward that is commensurate with the risk; the Argus Group has no appetite for unrewarded risks.
- Risks are only accepted to the extent that they contribute to the achievement of the Group's mission and the execution of its strategy.
- Risks are only undertaken where the Group has the demonstrable expertise to manage them.
- Risk tolerances are set to manage the Group's aggregate exposure to risk in accordance with the Group's appetite.
- Actual levels of risk versus risk tolerances are monitored and business plans are adapted to the extent required.

Material Risks and Risk Mitigation

The risk identification and assessment process has determined that the Argus Group is exposed to the following material risks:

General Insurance Risk

The principal risk the Group faces under insurance contracts is that the actual claims and benefit payments or the timing thereof, differ from expectations.

The risk exposure for claims and benefits differing from expectation is mitigated by diversification across a large portfolio of insurance contracts. The variability of risks is monitored by careful selection and implementation of underwriting strategy guidelines, as well as the use of reinsurance arrangements.

Mortality, Morbidity and Longevity Risk

Mortality refers to the likelihood of death. The mortality assumption is based on industry standard life insurance and standard annuity past and emerging experience. The volume of the Group's life insurance and annuity business is not sufficient to use company-specific mortality tables.

The Group maintains underwriting standards to determine the insurability of applicants. Claim trends are monitored on an ongoing basis. To offset some of the mortality risk, the Group cedes a proportion of the risk to reinsurers. Mortality and morbidity are monitored regularly.

Credit Risk (non-investment)

The Group has exposure to credit risk, which is the risk that a counterparty will suffer a deterioration in financial strength or be unable to pay amounts in full when due.

The concentration of credit risk exposures held by insurers may be expected to be greater than those associated with other industries, due to the specific nature of reinsurance markets and the extent of investments held in financial markets. By the nature of the business, reinsurers interact with similar customers in similar markets. However, the Group uses a panel of reinsurers with global operations and diversified portfolios and limits its exposure to any one reinsurer. On a quarterly basis, the Group's reinsurance panel is monitored by both the RMC and the Risk Committee of the Board.

Operational Risk

Operational risk is the risk of direct or indirect loss, reputational and/or brand damage arising from inadequate or failed processes or systems, people or external events including changes in the regulatory environment. Sub-categories of operational risk include:

- **People:** Human errors, internal or external fraud, breaches of employment law, unauthorised activity, loss or lack of key personnel, inadequate training, inadequate supervision;
- **Process:** Lack of internal control procedures, project management failures, ineffective change management, payment or settlement failures, inadequate process documentation, errors in valuation and/or pricing models, accounting errors, internal or external reporting and distribution channels;
- **Systems:** Failure of systems or application software that supports daily execution of business units, lack of systems development and implementation documentation, systems security breaches, integrity of data, unavailability of systems due to computer hacking, virus attacks or denial of services; and
- **External events:** Inadequate third-party/vendor management, undocumented outsourcing process, non-compliance with regulatory requirements, natural and other disasters, political risks.

This definition excludes strategic risk, financial risk and legal/litigation risk.

The Group developed an operational risk management system to capture, analyse and report on causes of control breakdowns and operational risk events including customer complaints. Details and resolution of these events are reported to the Risk Management Committee monthly and highlights of the events are reported to the Risk Committee on a quarterly basis.

Financial Instrument Risk

Credit risk, liquidity risk and market risks are associated with financial instruments.

- *Credit risk is the possibility that a counterparty will suffer a deterioration in financial strength or be unable to pay amounts in full when due.*

The Group manages credit risk by its specific investment diversification requirements such as investing by asset class, geography and industry, review of credit quality ratings for portfolio investments and an active credit risk governance, including independent monitoring and review and reporting to senior management and the Board.

- *Liquidity risk is the risk that the group will not be able to meet all cash outflow obligations as they come due.*

The Group actively manages its liquidity position and collateral exposure to ensure it has ample resources to fund obligations. The Group matches assets to its liability profile (ALM). The Group's ALM process allows it to maintain its good financial position by ensuring that sufficient liquid assets are available to cover its expected funding requirements. The Group invests in various types of assets with a view to matching them with its liabilities. To strengthen its liquidity further, the Group actively manages and monitors its capital and asset levels, the diversification and credit quality of its investments, cash forecasts and actual amounts against established targets.

- *Market risks include Currency, Interest Rate and Equity Risk.*

Investment portfolios are monitored and reviewed regularly for investment quality by the Asset Liability Committee and the Risk Committee of the Board. In addition, collateral requirements and concentration limits are specified in the Group's Investment Policy.

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The following policies and procedures are in place to mitigate the Group's exposure to currency risk:

- The Group regularly monitors the effect of currency translation fluctuations;
- Investments are normally made in the same currency as the liabilities supported by those investments;
- The majority of the Group's assets, liabilities and earnings are denominated in Bermuda or U.S. dollars; and
- The assets and liabilities of the foreign operations are held in their appropriate functional currency.

Interest rate risk is the potential for financial loss arising from changes in interest rates. Changes in market interest rates can impact the reinvestment of matured investments, as the returns available on new investments may be significantly different from the returns previously achieved. The Group manages these risks through:

- Asset allocation and diversification of the investment portfolio;
- Investing in fixed income assets that closely match the life product liability cash flows for products with fixed and highly predictable benefit payments; and
- Quantifying and reviewing regularly the risk associated with the mismatch in portfolio duration and cash flow.

Equity risk is the uncertainty associated with the valuation of assets arising from changes in equity markets. The direct exposure to equity markets generally falls within the risk-taking philosophy of the Group's Investment Policy and is regularly monitored by Management.

Catastrophe Risk

The Insurer is exposed to the possibility of a single event creating a high volume of claims, or high value claims, to property in the jurisdictions in which the Insurer provides property coverage.

The Group purchases a strategic portfolio of reinsurance to minimise a significant risk of loss to the Group, which includes proportional and non-proportional covers.

No material changes to the risks the Group is exposed to have occurred during the year.

Material risk concentrations

Concentrations of credit risk arise from exposures to a single debtor, a group of related debtors or groups of debtors that have similar credit risk characteristics, such as operating in the same geographic region or in similar industries. The characteristics are similar in that changes in economic or political environments may impact their ability to meet obligations as they come due.

Material concentration risk may arise from large exposures to counterparties, industry sectors and products, and geographic locations. The Group mitigates these risks through diversification.

Substantial progress has also been made to diversify our investment portfolio and we were able to substantially reduce the Group's concentration in certain equity holdings this year. Management remain focused on reducing the Group's remaining asset concentrations and removing potential volatility from non-core activities.

Investments

The Group's investment portfolio is designed to ensure funds are readily available to satisfy our obligation to policyholders, and to enhance shareholder value by generating appropriate long-term risk-adjusted yields.

The Group seeks to earn a reasonable long-term return whilst: (1) Being well-diversified and maintaining excellent credit quality; (2) Being sufficiently liquid to pay claims and other contractual liabilities as they become due; and (3) Asset-Liability Matching - investing in assets with similar characteristics to the liabilities they support.

The Group Investment Policy is the blueprint for the effective management of the assets associated with the liability structure, capital, and total return on investments of Argus Group Holdings Limited and its various subsidiaries. The Group Investment Policy is a subset of the Group's Risk Management Framework and sets out the Group Investment Policy objectives and constraints within the framework. In addition, the Policy defines the asset liability management approach and the procedures and controls for the operation of the Group's various investment portfolios.

Management of the Group's assets is performed centrally by the Portfolio Management Group (PMG) led by the Group Investment Manager and the CFO. Any recommendations and reviews of performance from the PMG are presented to the Asset Liability Management Committee for review and approval, and if necessary reviewed and approved by the Risk Committee of the Board.

Stress Testing and Sensitivity Analysis

Results of scenario testing have demonstrated that the Group is resilient to the majority of the stress tests investigated. In the instances where solvency deteriorates significantly, mitigating actions are in place to ensure that the impact is tolerable, or business is conducted in such a way that the scenario does not present itself as an ongoing risk.

Sensitivity testing of risks that are pertinent to the Group is performed as part of the Group's own risk and solvency self-assessment at least annually. The tests consider a range of scenarios and stresses using internally developed models, and take into consideration the results of the standard formula approach prescribed by the regulators.

Several stress scenarios are tested, which assess the likely range of outcomes and the impact on the Group's and operating insurance subsidiaries' capital position. Scenarios are selected based on their relevance to the Group using historical and probable events. These scenarios include: interest rate stresses, longevity stresses, catastrophe stresses, extreme claims inflation and reducing future business volumes.

The results of the Group's own risk and solvency assessment is presented to, challenged and approved by the Risk Management Committee and the Risk Committee of the Board. The results of the stress/scenario testing are also included in the annual returns to the regulators in Bermuda and Gibraltar.

Material risks identified by the self-assessment are incorporated in the Group's risk registers, which inform strategic decision making through its direct link to the Group's business planning process.

Reverse scenario testing has also been conducted to identify scenarios which would lead to regulatory insolvency, and a wind-up scenario to assess the Group's ability to remain sufficiently capitalised when it is closed to new business.

Any other material information

There is no additional material information to report under the Group's Risk Profile.

IV SOLVENCY VALUATION

The valuation bases, assumptions and methods used to derive the value of each asset class

The consolidated financial statements have been compiled on the going concern basis and prepared on the historical cost basis except for the following material items on the Balance Sheets:

- Financial assets and financial liabilities at fair value through profit or loss are measured at fair value;
- Available-for-sale financial assets are measured at fair value;
- Derivative financial instruments are measured at fair value;
- Investment properties are measured at fair value;
- Segregated fund assets and liabilities are measured at fair value; and
- Post-employment benefit liability is measured at the present value of the defined benefit obligation.

Investments are valued at carrying value. When available, quoted market prices are used to determine fair value for bonds, equities and derivatives. If quoted market prices are not available, fair value is typically based upon alternative valuation techniques such as matrix pricing, net asset valuation and discounted cash flow modelling. Broker quotes are used only when external public vendor prices are not available.

The valuation bases, assumptions and methods used to derive the value of technical provisions, the amount of the best estimate, and the amount of the risk margin.

Technical Provisions include:

- Long-term insurance claims reserves
- General business insurance claims reserves
- General business insurance premium provisions
- The risk margin

Long-term Insurance Claims Reserves

Long-term insurance claims reserves are determined by the Actuarial Function and represent the amounts that, together with future premiums and investment income, are required to discharge the obligations under life and annuity contracts and to pay expenses related to the administration of these contracts. These reserves are determined on a best estimate basis using either the BMA's scenario approach or the BMA's standard approach. Under the scenario approach, the best estimate policy reserves are calculated by projecting asset and liability cash flows discounted under a variety of interest rate scenarios provided by the BMA. For the standard approach, the cashflows are discounted using a single yield curve supplied by the BMA. Reinsurance recoveries are adjusted for the expected likelihood of counterparty default.

General Business Insurance Claims Reserves

General business insurance claims reserves represent the best estimate of the ultimate costs of claims in the course of settlement and claims incurred but not yet reported. Reinsurance recoveries are adjusted for the expected likelihood of counterparty default. The provision for unpaid and unreported claims is discounted using the BMA prescribed rates of interest.

General Business Insurance Premium Provision

The premium provision represents the present value of the expected cash flows on the unexpired portion of all in-force policies, and policies to which the Group is contractually bound that have yet to incept. These are commonly referred to as bound but not incepted exposures (BBNI). Best estimate assumptions are used for the expected lapse rate, claims experience and expenses. The premium provision is discounted using the BMA prescribed rates of interest.

Risk Margin

The risk margin allows for and reflects the uncertainty associated with the best estimate liabilities. The risk margin is determined based on the non-market related BSCR under the Economic Balance Sheets basis, using the Cost-of-Capital approach over the full period required to run-off the insurance liabilities.

As at March 31, 2018, the total Technical Provisions for the Argus Group amounted to \$408.5 million:

Argus Group \$000	2018			2017		
	General Business	Long-Term Business	Consolidated	General Business	Long-Term Business	Consolidated
Net premium provisions	2,783	-	2,783	4,977	-	4,977
Net loss & loss expenses	25,080	374,832	399,912	19,870	388,403	408,273
Risk margin	1,153	4,610	5,763	811	4,766	5,577
Total	29,016	379,442	408,458	25,658	393,169	418,827

As at March 31, 2018, the total Technical Provisions for AICL amounted to \$6.1 million:

AICL \$000	2018	2017
	General Business	General Business
Net premium provisions	1,262	1,490
Net loss & loss expenses	4,389	3,885
Risk margin	414	374
Total	6,065	5,749

As at March 31, 2018, the total Technical Provisions for BLIC amounted to \$383.3 million:

BLIC \$000	2018			2017		
	General Business	Long-Term Business	Consolidated	General Business	Long-Term Business	Consolidated
Net premium provisions	(2,678)	-	(2,678)	(944)	-	(944)
Net loss & loss expenses	10,427	371,420	381,847	8,596	377,065	385,661
Risk margin	83	4,093	4,176	69	4,510	4,579
Total	7,832	375,513	383,345	7,721	381,575	389,296

The Technical Provisions for AILBL, AILIL and BLW are highlighted in the following table. In accordance with the Act, AILBL's Technical Provisions are consolidated and include the Technical Provisions of AILIL and BLW. All three entities only write long-term business, and on a consolidated basis, the total Technical Provisions for the year ending March 31, 2018 amounted to \$0.2 million.

AILBL \$000	2018			2017		
	Consolidated	AILIL	BLW	Consolidated	AILIL	BLW
Net premium provisions	-	-	-	-	-	-
Net loss & loss expenses	30	(5,112)	11,457	7,797	(3,450)	11,149
Risk margin	218	5	201	524	7	669
Total	248	(5,107)	11,658	8,321	(3,443)	11,818

Recoverables from reinsurance contracts

The main recoverables from reinsurance contracts are claims and adjustment expenses and policy benefits.

The valuation bases, assumptions and methods used to derive the value of other liabilities

Investment Contract Liabilities

- Fair value of the Deposit accounted annuity policies is determined by using valuation techniques, such as discounted cash flow methods. A variety of factors are considered in the valuation techniques, including yield curve, credit spread and default assumptions, which have market observable inputs.
- Deposit administration pension plans and self-funded group health policies are measured at amortised cost.

There is no additional material information to report under Solvency Valuation

V CAPITAL MANAGEMENT

Capital needs and regulatory capital requirements

Eligible Capital

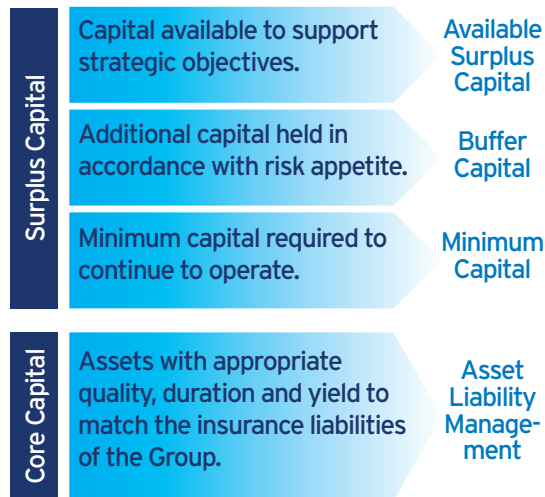

Over the past year there have been significant changes to the regulatory regimes in the jurisdictions in which Argus operates. This resulted in some significant changes to the way capital is assessed and the amount of capital the Group was required to hold to support its operating entities. In several instances this has merely aligned the regulatory capital requirement with our own internal assessment of capital needs. Argus is pleased that our diligent capital planning means that, despite this raising of the bar, the Group remains in a healthy capital position. We continue to hold conservative buffers over and above that required by our regulators, leaving sufficient surplus capital available to support strategic growth.

The Group's capital base is structured to exceed regulatory targets, maintain satisfactory credit ratings, align the profile of assets and liabilities taking account of risks inherent in the business, provide flexibility to take advantage of growth opportunities and provide an adequate return to shareholders. Capital is managed on a consolidated basis under principles that consider all the risks associated with the businesses. It is also managed at the operating segment level under the principles appropriate to the jurisdiction in which it operates.

Capital Strategy

We continue to maintain a strong balance sheet. These provide the financial flexibility to fund strategic investment in the business and acquisitions.

Management considers the capital requirements of the Group on a monthly basis and advises the Risk Management Committee through the Medium-Term Capital Plan (MTCP) of any surplus or deficit capital. The MTCP includes an analysis of the quarterly financial position of the Group, including the solvency requirements as prescribed by the Act. The Group maintains an internal capital target, and the MTCP will advise of measures to be taken to adjust surplus in order to achieve the internal target. The principles of the MTCP are considered in the business planning cycle.

The Argus Group and all Bermuda insurance subsidiaries hold only Tier 1 basic capital, the highest quality capital (i.e. fully paid shares, contributed surplus and statutory surplus) in accordance with the Eligible Capital Rules. The Group does not hold any Tier 2 or Tier 3 capital.

As at March 31, 2018:

- AGH has 25,000,000 authorised, with 20,983,850 issued and fully paid, (excluding treasury shares) common shares at par value \$1.00, and is traded on the Bermuda Stock Exchange
- 917,784 shares are held in treasury
- AGH has contributed surplus of \$52.7 million and statutory economic surplus of \$64.4 million
- Minority interest is \$9,000

All capital used to meet the Enhanced Capital Requirement (ECR) and Minimum Solvency Margins (MSM), are categorised as Tier 1 basic capital.

Eligible capital is not subject to transitional arrangements as required under the Eligible Capital Rules.

There are no factors affecting encumbrances on the availability and transferability of capital to meet the ECR.

The Group does not have any ancillary capital instruments that have been approved or otherwise by the Authority.

Reconciliation of Capital & Surplus – March 31, 2018						
\$'000	AICL	BLIC	AILBL*	AILIL	BLW	AGH
IFRS Equity	26,665	40,976	10,721	1,035	6,626	105,882
Prudential filters:						
Prepayments		(3,130)				(3,523)
Intangible assets	(151)		(864)			(4,869)
Guarantees	(1,931)					(1,931)
Statutory Capital & Surplus	24,583	37,846	9,857	1,035	6,626	95,559
Adjustment for insurance reserves						
to net Technical Provisions	290	23,173	12,639	5,170	1,096	38,331
Fair value adjustment of assets	4,387	(3,757)	41		41	(325)
Economic Capital & Surplus	29,260	57,262	22,537	6,205	7,763	133,565

* AILBL is reported on a consolidated basis and includes AILIL and BLW.

Regulatory Capital Requirements

The MCM, ECR and capital coverage ratio of the insurance entities regulated by the BMA are summarised in the table below:

\$'000	MSM	ECR	Economic Capital and Surplus	Statutory Coverage Capital Ratio
Argus Group	33,648	45,915	133,565	291%
AICL	4,706	18,824	29,260	155%
BLIC	23,016	27,674	57,262	207%
AILBL*	500	1,910	22,537	1180%
AILIL	500	500	6,205	1241%
BLW	500	1,939	7,763	400%

* AILBL is reported on a consolidated basis and includes AILIL and BLW.

The statutory economic capital and surplus is equal to the eligible capital used to meet the ECR and MSM requirements, with the exception of Argus Group. In accordance with the Eligible Capital Rules, Argus Group eligible capital used to meet the ECR is \$133,556,000 due to a \$9,000 minority interest adjustment to statutory economic capital and surplus.

The Group uses the BMA's standard approach to calculate the capital requirements of the insurance entities regulated by the BMA, including Argus Group, and does not use an internal capital model to derive the Enhanced Capital Requirement.

VI SIGNIFICANT EVENTS

Dividends Post Year-End

Based upon the audited financial results of the Group for the year ended March 31, 2018, the Directors have declared an interim dividend of nine cents per share (2017 - nine cents per share) payable on August 15, 2018 for shareholders of record on July 31, 2018.

Divestment

On June 25, 2018, the Group entered into an agreement to divest the International Life Division, which includes AILBL and its subsidiaries, AILIL and BLW, to Advantage Insurance Inc., a specialty private placement life insurance company. The sale consideration is based on the tangible book value of the business and is subject to certain adjustments dependent on the persistency of the book of business. The transaction is subject to receipt of all required regulatory approvals and expected to be completed prior to September 30, 2018.

Portfolio Transfer

Effective June 29, 2018, and pursuant to section 25 of the Act, BLIC completed the transfer of certain private placement variable life insurance policies to AILBL, with corresponding assets and liabilities of \$137.9 million. The policies were transferred in order to consolidate the international life insurance business into one company, which will facilitate a more efficient process of divesting the entire International Life Division.
